RESOLUTION

Establishing and Arts District in Northeast Minneapolis Arts District as Recommended by the Minneapolis Arts Commission on November 20, 2002.

Whereas empty warehouse and factory spaces in Northeast Minneapolis have become the working homes to hundreds of local Minneapolis artists over the last ten years; and

Whereas economic figures indicate that the arts are a sound City investment, because they support tourism, promote quality of life, and attract businesses; and

Whereas, Northeast Minneapolis artist spaces have become threatened, with changes in the economy and an increase in local value and opportunities for commercial, retail and mixed-use development; and

Whereas the Northeast Minneapolis Arts Association (NEMAA), a vital organization serving the needs of Northeast artists, had the vision and forethought to develop a plan for maintaining the area in the long-term as an arts community; and

Whereas through NEMAA's leadership and the services of Jerry Allen and Associates, nationally-recognized consultants, a compelling and thoughtful Arts Action Plan was created; and

Whereas the creation of this plan was also generously supported by the McKnight Foundation, Shamrock Properties, Hillcrest Development, Wells Fargo Bank and General Mills; and

Whereas this Arts Action Plan is the first phase of an at least fifteen-year plan with the central aim to stimulate economic revitalization through cultural revitalization;

Now, Therefore, Be It Resolved that The City Council of The City of Minneapolis:

Establishes the Northeast Arts District within in the area from Central Avenue N.E. to Marshall Street N.E., and from 26th Avenue N.E. to Broadway Avenue, with Arts Zones of highest artist concentration and cultural activity;

Be It Further Resolved that the City Council directs the Minneapolis Arts Commission and the Cultural Affairs Division of the Planning Department to incorporate strategies for supporting the Northeast Arts District, as described in

the Arts Action Plan, into the City of Minneapolis Plan for Arts and Culture and the Minneapolis Comprehensive Plan, particularly strategies with regard to public art and grants and loans for art spaces;

Be It Further Resolved that the City Council directs the Planning and Inspections Departments to create a definition of an "arts overlay district" and identify development incentives, building code implications and public education strategies, as described in the Arts Action Plan, for developing such districts;

Be It Further Resolved that the City Council directs the Department of Public Works to work with NEMAA on a signage strategy and image for the Arts District that is allowable within the public right of way;

Be it Further Resolved that the City Council directs all of these departments to work closely with NEMAA and to gather community input during this process;

Be It Further Resolved that the City Council directs all of these Departments to identify the financial implications of these strategies for establishing the Arts District;

Be it Further Resolved that the City Council directs all of these Departments to identify the City-wide implications for establishing the Arts District;

Be It Further Resolved that the City Council directs all of these Departments to report back to the Minneapolis City Council on these issues and next steps by July of 2003.
